

QuicKey Leveler™

Patent Pending

Start Enjoying Key Leveling

The most sophisticated and precise method of piano key leveling!

♦ Saves Time & Money!

♦ Eliminates Tedium!

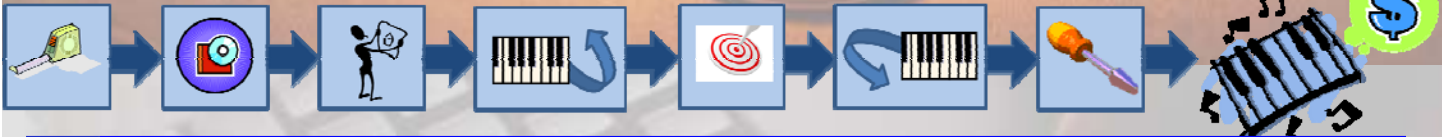

♦ Generates Revenue!

♦ Highest Quality Results!

Use the **QuicKey Leveler** and forget the time consuming back and forth wasted motion of the traditional methods that leave you guessing and frustrated.

Take your first step in regulation with confidence using these easy steps.

 Accurately measure all the keys using the precision engineered universal apparatus.

 Enter and save measured data into the **QuicKey Leveler Software** program.

 Plan your leveling job; choose arc height, amount of adjustment and units of measure.

 Remove all keys from the piano exposing punching to a open well lit work area!

 Technician Report tells you EXACTLY how punching must be adjusted to level

 Return all the keys to the piano.

 Planning minimizes action adjustments.

The **QuicKey Leveler** method reduces leveling time so dramatically that it will pay for itself! The **QuicKey Leveler** allows its users to offer a new revenue generating service; "Key Leveling Analysis." Let the Leveler Company show you how!
